

About Us

FM Physician Billing knows that the lifeline of your practice depends on being proactive, not reactive in every segment of your practice. Many billing companies provide billing and coding services, but few offer the experience, knowledge and custom service provided by FM Physician Billing.

Our Team of experienced professionals ensures that you are capturing ALL of the services you provide. We are with you from the initial insurance verification to providing your staff with information to inform patients of their deductible/coinsurance responsibility.

We help determine if chemotherapy drugs should be provided by your practice or obtained thru the patient's prescription drug plan.

Our knowledge of medical oncology billing and additional specialties allows us to correctly capture every billable service, get clean claims to the insurance accurately and promptly and most importantly provide timely follow up on every line of every claim to ensure every recoverable cent is collected!

Our team of billing specialists understand the uniqueness of specialty billing and the complexities of your practice. We provide your staff with the tools needed to coordinate a **TEAM** effort in these critical times.

**Our Experience, Commitment,
and Vision *is the key*
to our Success & the
Success of our clients!**

FM Physician Billing

Choosing to outsource your billing is a major decision and the confidence in the company you choose is an important factor. Whether you have decided to outsource your billing, credentialing, front desk functions, such as patient insurance checks, profitability treatment plan analysis, and co-insurance payment plans or feel you need an evaluation of your practice...

*FM Physician Billing is the **RIGHT CHOICE!***

Our experienced Representatives are skilled in correct coding and reimbursement procedures for your specialty. We review your billing forms prior to data entry to determine your coding patterns and alert you to inconsistencies, as well as submit clean claims and perform insurance and patient aging monthly. We have developed a primary/secondary follow up schedule that ensures all claim delays and/or denials are addressed timely and aggressively.

Specialty 3 Point Strategy

1. Treatment Plan Payment Analysis

We review all treatment plans BEFORE starting treatment. We list your cost vs. insurance reimbursement to help you make the decision to buy and bill or script drugs. When co-insurance and/or deductibles are involved, we provide the amount per daily treatment that must be collected and speak with your patients on your behalf. We consistently update your costs and carrier reimbursement schedules and monitor for changes weekly to determine whether you are losing or increasing revenue opportunities.

2. Approved Indications

Diagnosis (primary and/or combination) is verified thru NCCN and/or NGS Local Coverage Determination prior to treatment.

3. Pre- Determination/Pre-Certification

We confirm if treatment and drugs require Pre-Certification/Pre-Determination or Specialty Pharmacy requirements and execute all necessary procedures.

Services

- Complete Medical Billing
- Practice Management Consulting
- Credentialing
- Start-Up Practice Services
- Hot Line for Coding & Reimbursement Questions
- Front Desk Support
- Practice Review

Additional Benefits
